TS-628SKW

Professional Speaker

The itc TS-628SKW is a professional Speaker from itc's Subwoofers range, built for low-frequency extension for line arrays and full-range systems in live, club and installation work.

Key figures: rated power 1200W; peak power 4800W; frequency response 40Hz-400Hz. Highlights include two 18-inch ferrite subwoofer units, strong and wear-resistant cabinet, inverted design and professional sockets and plugs with good electrical characteristics.

Key features

- Two 18-inch ferrite subwoofer units
- Strong and wear-resistant cabinet — 18mm birch board with CNC cutting technology Internal multi-point ribs fixed to increase the stability Polyurea painttreatment for surface One-piece stamping and formingrigid mesh grille Acoustic high
- Inverted design — High energy density and great instantaneous dynamics
- Professional sockets and plugs with good electrical characteristics

Technical specifications

Impedance	4Ω
Frequency response	40Hz-400Hz
Rated power	1200W
Peak power	4800W
Sensitivity	101dB/W/M
Max SPL (rated/peak)	132dB/138dB
Subwoofer	18″ subwoofer×2
Protection level	IP44
Dimension	560×1070×762(mm)
Weight	83kg
