T-540

Microphone

The itc T-540 is a microphone from itc's Wireless Microphones range, built for speech, vocal and instrument pickup for conferences, lectures, worship and live performance.

Key figures: power supply Phantom power 48V; frequency response 30Hz-16kHz; sensitivity -43dB±2dB. Highlights include professional speech&singing microphone, unique circuit design and strong anti-interference ability.

Key features

- Professional speech&singing microphone
- Unique circuit design
- Strong anti-interference ability — Resistant to phone, electromagnetism, and high frequency interference

Technical specifications

Pickup cartridge	Cardioid directional microphone
Switching mode	Dual condenser mode
Frequency response	30Hz-16kHz
Output impedance (Ω)	Balanced 75Ω
Sensitivity	-43dB±2dB
Power supply	Phantom power 48V
Adjustable height	0.1 m ~ 1.65 m
Microphone weight	11 Kg
Microphone cable	XLR cable
Base	Conical diameter of 240mm, height of 60mm
Anti-interference	Resistant to phone, electromagnetism, high-frequency interference
