itc · STADIUM HORN SPEAKERS

TS-3H

Professional Speaker

The itc TS-3H is a professional Speaker from itc's Stadium Horn Speakers range, built for speech and music reinforcement in conference rooms, banquet halls, theatres, KTV and multipurpose venues.

Key figures: power 400W; frequency response 100Hz~20KHz; maximum spl(±3db) 124dB. Highlights include plastic injection molding cabinet, integrated stamping molding rigid mesh cover, one high-efficient 12-inch neodymium magnet mid-woofer and one high-quality 44-pin neodymium magnetic tweeter driver.

Key features

- Plastic injection molding cabinet
- Integrated stamping molding rigid mesh cover
- One high-efficient 12-inch neodymium magnet mid-woofer
- One high-quality 44-pin neodymium magnetic tweeter driver — Adopt an overload protection device Withstand the impact the variable signals
- Horn design for units to prolong the transmission distance

Technical specifications

Impedance	8Ω
Frequency response	100Hz~20KHz
Power	400W
Sensitivity(±3dB)	98dB
Maximum SPL(±3dB)	124dB
Coverage angle	(H) 70° (V) 70°
Tweeter	44-core tweeter×1
Woofer	12-inch bass × 1
Connecting socket	Two 4-pin SPEAKON sockets 1+2-
Dimension	450x450x728mm
Weight	18.8KG
